VUNYX®

## Window Film (OCP Series)

**Vunyx® OCP Window Film** is a high-performance sun control film made from premium dyed polyester (PET) material. Infused with carbon, it blocks nearly 100% of harmful UV rays, while reducing glare and heat inside your car. With a visible light transmission of just 3%, a 99.90% UV reduction, and 80% infrared (IR) rejection, this film ensures superior protection.

The dye is integrated directly into the base material, resulting in a consistent and stable color. It comes in a 2-ply structure, coated with an anti-scratch layer, and offers enhanced privacy with a darker shading effect for your vehicle.
